Re: 9th International Peace Tax Conference
September 2002 in Berlin, Germany.
Attention *Friedrich* Heilmann,

I am directed to refer to the subject matter and to herewith submit the names of our participants for the above referenced conference scheduled to take place in September this year in Berlin, Germany. The names of participants are as follows: Dauda Thullah-Financial Director and Mr. Mobamed Bangura-Public relation's Officer.

Peace Tax Foundation Sierra Leone is a grassroot organisation founded and incorporated in Sierra Leone in 2000. It is an affiliate to Peace Tax Foundation in the United State with the objective to impose pressure on the Sierra Leone Government in order to stop using taxpayer's money for military purposes.

The aim of Peace Tax Sierra Leone is to campaign for a peace tax fund. Our country Sierra Leone has faced a decade old rebel war in which the government spent all the country's revenues to purchase military weapons to fight the war. It is against this background that we stood firm to establish a peace tax campaign in Sierra Leone. But due to lack of funds to run the organisation to a national capacity, we therefore request the assistance of all the peace tax foundation to help us in our fundraising efforts. The 9th International Peace Tax Conference (money, war and conscience) will serve as unique opportunity for us to put forward our financial constraint to enhance the above mentioned aims and objectives of the Peace Tax Foundation.

Be informed that Peace Tax Sierra Leone registered as a non-governmental, non-profitable grassroot organisation under the Ministry of Development of Sierra Leone. We are on the move to present our proposal to the Court Sierra Leone to enact a peace tax campaign.

We hope and pray that the 9th International Peace Tax Conference will achieve it goal.
Hence your kind attention to our financial problems is highly appreciated.

Yours Sincerely,

Ishmail Mansaray
Country Rep. Peace Tax Sierra Leone
